

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Claims 1-13. (Cancelled).

14. (Currently Amended) Digital audiovisual ~~Audiovisual~~ reproduction system, comprising a central unit controlling a display, a touch screen, and memory, through a multitask operating system comprising a tools and services library,

wherein the operating system comprises ~~interpreting means~~ an interpreter for interpreting actions of an operator on the touch screen and for allowing such an operator to access a module in the tools and services library, so as to offer a manager of the audiovisual reproduction system a given number of credits, one credit corresponding to the fee necessary to select a song,

the number of credits being stored in a file on the memory as a credit reserve, this file being updated each time the manager uses a credit and each time the operator supplies one or more credits,

said interpreter ~~interpreting means~~ being adapted for interpreting:

touching of a first ~~specific~~ button in a first ~~specific~~ area of the touch screen as a request for adding in said file one credit to the credit reserve, and

touching of a second ~~specific~~ button in a second ~~specific~~ area of the touch screen as a request for removing in said file one credit to the number of credits only if the credit reserve is not empty,

the first button being provided in a first displayed screen for the operator, the second button being provided in a second displayed screen for the manager,

an interface being automatically displayed in the first screen and in the second screen when one of said specific buttons is used, said interface requiring a first code for enabling said first button to function as a request for adding in said file one credit to the credit reserve when this first button is touched, said interface requiring a second code for enabling said second button to function as a request for removing in said file one credit from the credit reserve when this second button is touched.

15. (Currently Amended) Digital audiovisual ~~Audiovisual~~-reproduction system according to claim 14, wherein credits supplied by the operator can be used within a given time range determined by a program module that displays a ~~special~~-screen for selection of time ranges within which the credits in the reserve may be used.

16. (Cancelled).

17. (Cancelled).

18. (Currently Amended) Digital audiovisual ~~Audiovisual~~-reproduction system according to claim 14, wherein an operator can limit the ranges of values within which the manager can modify the physical parameters of the audiovisual reproduction system.
